

The Proven Track to Compliance

Press Release

FOR IMMEDIATE RELEASE

## **TAB Receives 2006 TEAM Compliance Strategic Partner of the Year Award from Accutrac Software Inc.**

**ARMA Conference, Texas - October 22, 2006** – TAB, a global leader in providing integrated records management solutions, was presented with the 2006 Compliance Strategic Partner of Year award by Accutrac Software Inc., which supports compliance with flexible and scaleable records management systems.

2006 marks the first year Accutrac has initiated an awards program for partners and clients in such an official capacity and going forward, will become an annual event during the ARMA conference. With approximately twenty awards to be presented, TAB is the only recipient to receive the distinction of 'strategic partner.'

"Working closely together for two years, we wanted to recognize TAB for their outstanding achievements in assisting us with the implementation of multiple enterprise-class records management software systems and helping some of North America's leading businesses, including a number of Fortune 100 organizations, reach compliance," says Jim Wendt, Director of Marketing, Accutrac.

Organizations in all business sectors and at all administrative levels are realizing the importance of records management. Whether it is hard copy labeling, or electronic records and email management, the TAB/Accutrac partnership excels in its ability to apply modern technology as well as traditional know-how in order to blend and adapt to each client's unique needs. With both North American and International capabilities, TAB and Accutrac have implemented successful projects in the U.S., Canada, and Europe with leading companies in the banking, oil and gas, insurance, pharmaceutical, and government sectors.

"TAB is very proud to be the first recipient of this award," says Dave Kucz, TAB's Director of Global Technology Solutions. "RM is more than just a software deployment as it requires fundamental records management expertise in order to deliver solutions for physical records, create classification structures and retention rules, and deploy the necessary technology components. Together with Accutrac, we have developed a proven and consistent best practices approach to specific vertical industry sectors and we have been very successful. We look forward to furthering this partnership in 2007.

### **About Tab**

With over fifty years experience in records management consulting, TAB helps companies analyze, develop and implement records management solutions in order to meet compliance requirements, save money and reduce risk. TAB works with Fortune 500 companies in industries such as legal, financial services, and oil and gas to set up programs to organize, access and manage critical documents and records.
